1. In response to communication sent on 7 May 2007, with acknowledgement of an original application filed on 15 January 2004. Claims 1-20 are currently pending in this application. Claims 1, 12, 19, and 20 are independent claims.

Reasons for Allowance

In interpreting the claims in light of the specification and applicant's arguments.

The prior art of record, fails to anticipate or render Applicant's particular feature: (as stated in independent claims 1, which is stated similar in independent claims 12, 19, and 20)

“establishing a correspondence between the IP address and a first shared secret authorized for the user; receiving a second request from the user to form a virtual private network tunnel, the request incorporating a second shared secret; determining whether the first shared secret matches the second shared secret; and forming the virtual private network tunnel when the first shared secret matches the second shared secret”

The dependent claims, being further limiting to the independent claims, defined and enabled by the Specification are also allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.
